

Year 10 Standard and Advanced Maths CAS Calculators

2020

Hello Parents/Guardians,

In 2020, Texas Instruments has released a new version of the TI-nSPIRE CAS CX II calculator, seen in the image on the left. **Your child requires a CAS calculator for all maths classes at year 10 as well as all VCE maths classes in Year 11 and 12.**

Second hand calculators can be purchased through Sustainable Schools Shop:

<https://www.sustainableschoolshop.com.au/>

A second hand CAS needs to be purchased with a charging cord if possible. Please note when purchasing a second hand calculator it does not come with a warranty.

If you want to purchase a new one they can be purchased from the following suppliers:

Campion via the booklist. Booklist price is: \$259.95

Abacus calculators: \$240 including GST

<https://www.abacuscalculators.com.au/shop-item/tinspirexcasii-new-model>

Haines Educational: \$220 including GST

<https://www.haines.com.au/ti-nspiretm-cx-ii-cas.html>

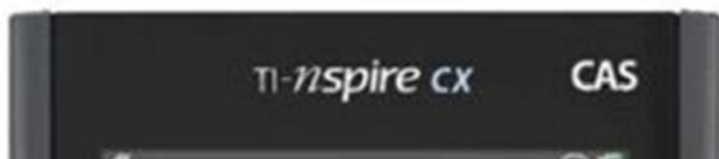

Officeworks: \$210 as of 20/11/19.

Please note, if you want to buy the new version of the TI-nSPIRE CAS CX II, check the label at the top of the calculator carefully. It should match the one shown on the left.

The TI-nSPIRE CAS calculator is required for your child's schooling in Mathematics, no matter what course they take during VCE. VCAL students do not require this calculator but will need a basic scientific calculator.

Students should also retain their scientific calculator from the previous year for all Year 10 and VCE maths classes.

The image above shows the current version of the calculator, the TI-nSPIRE CX. This calculator should only be bought second hand and **with the charging cord**. Do not pay full price for it at any retailer as the TI-Inspire CX has been superseded. It can be purchased for students in Year 11 and 12.

Please note there have been changes to the Year 10 Textbooks, Year 10 Standard Maths has the Cambridge Essential Mathematics 10 GOLD AC textbook (same as the year 10 standard maths this year) **but Year 10 Advanced Maths has a new textbook**, Cambridge Essential Mathematics 10 and 10A for the Victorian Curriculum **Second Edition**.
