

Year 10 Standard and Advanced Maths CAS Calculators 2022

Hello Parents/Guardians,

In 2020, Texas Instruments has released a new version of the TI-nSPIRE CAS CX II calculator, seen in the image on the left. **Your child requires a CAS calculator for all maths classes at year 10 as well as all VCE maths classes in Year 11 and 12.**

Second hand calculators can be purchased through Sustainable Schools Shop:

<https://www.sustainableschoolshop.com.au/>

A second hand CAS needs to be purchased with a charging cord if possible. Please note when purchasing a second hand calculator it does not come with a warranty.

If you want to purchase a new one they can be purchased from the following suppliers:

Campion via the booklist. Booklist price is: \$259.95

Abacus calculators: \$240 including GST

<https://www.abacuscalculators.com.au/shop-item/tinspirecxcasii-new-model>

Haines Educational: \$230 including GST with 3 year warranty

<https://www.haines.com.au/ti-nspiretm-cx-ii-cas.html>

Officeworks: \$225 as of 20/10/21.

Please note you need to check the label at the top of the calculator carefully. It should match the one shown on the left.

The TI-nSPIRE CAS calculator is required for your child's schooling in Mathematics, no matter what course they take during VCE. VCAL students do not require this calculator but will need a basic scientific calculator.

Students should also retain their scientific calculator from the previous year for all Year 10 and VCE maths classes.

If you are facing financial difficulty, arrangements can be made through the school business manager, Ms. Fiona Rankin, if funding criteria are met. Payment plans are also available through the business manager as well.

Please note there are two year 10 Textbooks for Maths on the booklist. Year 10 Standard Maths has the Cambridge Essential Mathematics 10 CORE for the Victorian Curriculum and Year 10 Advanced textbook is Cambridge Essential Mathematics 10 and 10A for the Victorian Curriculum. **Both textbooks can be purchased second hand.**

Year 10 STANDARD Maths

Year 10 ADVANCED Maths
